WRAPAROUND CARE MATTERS

The work of caring for the orphaned and vulnerable is beautiful but also difficult. This ministry is particularly susceptible to secondary trauma, compassion fatigue, and burnout. Legacy 68:5 seeks to sustain foster and adoptive families as they journey to build deep healing connections. Only through a diverse team of volunteers can we meet these goals. All potential volunteers with direct contact must pass through the highest standard of screening in order to provide the safest environments possible for these children and families.
